

EMPLOYMENT OPPORTUNITIES

2021 Field Season

Harvest Gold Corporation (Harvest Gold) has engaged Equity Exploration Consultants Ltd. (Equity) to operate their 2021 exploration program at the Emerson project

Emerson project is located ~15 km west of Houston, BC. Exploration activities will be conducted in summer 2021 and include a ground geophysical survey ('IP' or induced polarization) in August.

Equity is seeking candidates for the following upcoming position:

- **Geophysical Field Assistant:**
 - ~3-week job starting early to mid-August
 - Assist the geophysicists to deploy the wires and set up injection and receiver stations on the ground along the survey lines

The successful field assistant candidates must be:

- Safety-oriented
- Willing to work in all kinds of weather conditions
- Be physically fit:
 - Capable of carrying 50 lbs
 - Capable of hiking through dense bush, in steep terrains

Harvest Gold and Equity are committed to providing a safe and healthy working environment. As such, project sites will be strictly free of alcohol and drugs.

- A valid first aid certification and Class 5 driving license are an asset

Interested candidates should submit their resumes to fabienr@equityexploration.com before **July 20th**. Indicate in your email that your application is for Emerson project.
